

*Amb. Mark Siljander
Member of the United States Congress (ret)
Davidson, North Carolina*

May 24, 2022

Dear media and California voters,

It is a privilege and pleasure to recognize the efforts of Dr. Sarah Sun Liew, in her campaign to become the candidate for the Republican Party in the race for the United States Senate seat for California.

I believe that Sarah can make an inclusive leader as a Senator from California.

Sarah's entrepreneurial skills, extensive education, community endeavors, and leadership in her faith-based communities, speak well for how she has achieved the American Dream.

Sarah is a conservative community leader, and rightly aspires to lead all of California in returning to the common values and character traits which can assure success in life for every Californian.

Sarah wants to ensure that a public education is a path to success for each Californian.

Sarah wants to assure available, accessible, affordable health care for everyone in California.

Sarah will see to it that a Moment of Silence, for a minute of meaningful reflection, will be available to all students in the State.

Sarah will endeavor to invite pan-Pacific IT semiconductor industry researchers and business leaders to develop the next generation of these vital technologies in California.

Sarah can ably reach out to the semiconductor experts of her native homeland of Korea, as well as Taiwan, Japan, China, and Israel, to work together to overcome the pervasive and

persistent supply chain issues which now impede the global semiconductor supply chain and are posing impediments to our American national security and human security.

Sarah will work with faith-based community initiatives to reach out to the homeless to provide accessible community centers offering showering and hygiene facilities, laundry rooms, and access to employment and housing assistance from professional social workers.

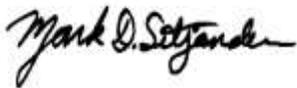

Sarah will seek to resolve the long pending dreams of the DACA youth and their families, as well as those of deported American veterans, to ensure that California exercises her Sovereign right as a State to be as welcoming as possible to those who have always thought themselves to be Americans, or who can demonstrate their genuine rehabilitation back into the community as a responsible member of society.

Sarah will back restorative justice, health equity, and restoring the Constitutional vision of a United America, where each American is empowered to succeed.

Because I firmly believe in the Korean traditional work ethic, their faith-based values and personal character, and Sarah's successes as our fellow American, it is my great delight to recommend Dr. Sarah Sun Liew, to all my fellow republican voters, to represent the party in the race for the US Senator for California!

California deserves no less than the best, vote for Dr. Sarah Sun Liew!

Respectfully,

A handwritten signature in black ink that reads "Mark D. Siljander". The signature is written in a cursive, flowing style.
